

Air Operated Grease Gun

Product Description:

The Air Operated Grease Gun Injection Gun is a rugged, easy to operate, light-weight unit providing an extremely fast discharge rate. It comes complete with an aluminium frame, a 10,000 PSI hydraulic pump, a “J” or “K” grease stick barrel and a Pelican® carrying case.

This extremely versatile unit works well both on and offshore and is recommended for field, plant, and platform applications. It is designed to pump standard and special materials including highly viscous lubricants, sealants, packing, and

cleaners. The unit is also used for hydrostatic and applied testing on pipelines and wellheads and is currently used by many of the leading Australian pipeline service companies.

 Product Code: ACC-AH-10K-J/K-STK

Features and Specifications:

- The grease gun is capable of pressure up to 10,000 PSI
- Delivers grease at 12 ounces in 30-60 seconds
- Self-priming pump that operates with 80 – 100 psi of air supply
- Tamper Proof Internal Relief Valve
- Easily Serviceable with Heavy Duty Metal Construction.
- “Sure Grip” Surfaces
- Corrosion Resistant
- Handle used as a push rod to return barrel piston and to lock and unlock barrel cap.
- On / Off valve
- 1.8-meter discharge hose rated at 10,000 with swivel
- Liquid Filled Pressure gauge with gauge cover – 10,000 PSI
- Button Head Coupler
- Operation Manual
- Pelican® Case

Pump Output	Up to 10,000 psi
Capacity	“K” size stick “J” size stick
Air Inlet	¼” NPT (Female)
Delivery	12 oz in 30-60 seconds
Air Consumption	9 cfm
Self-Priming Hydraulic Pump	Standard
Outlet	Giant Button Head Coupler
Operating Pressure	80 – 100 psi (air supply from plant, tank or portable source)
Net Weight	19.95kg

Hydraulic Foot Operated Grease Gun

Product Description:

The ACC Hydraulic Foot-Operated Grease Injection Gun is a rugged, easy to operate, light-weight unit providing an extremely fast discharge rate. When compressed air is not available this gun is ideal. It comes complete with an aluminium frame, a 10,000 PSI hydraulic pump and a “J” or “K” grease stick barrel.

This extremely versatile unit works well both on and offshore and is recommended for field, plant, and platform applications. It is designed to pump standard and special materials including highly viscous lubricants, sealants, packing, and cleaners. The unit is also used for hydrostatic and applied testing on pipelines and wellheads.

Product Code: ACC-HFGG-10K-J/K-STK

Features and Specifications:

- The grease gun is capable of pressure up to 10,000 PSI
- Delivers grease at 12 ounces in 30-60 seconds
- Tamper Proof Internal Relief Valve
- Easily Serviceable with Heavy Duty Metal Construction.
- Compact and portable
- “Sure Grip” Surfaces
- Corrosion Resistant
- Handle used as a push rod to return barrel piston and to lock and unlock barrel cap.
- On / Off valve
- 1.8-meter discharge hose rated at 10,000 with swivel
- Liquid Filled Pressure gauge with gauge cover – 10,000 PSI
- Button Head Coupler
- Operation Manual

Pump Output	Up to 10,000 psi
Capacity	“K” size stick “J” size stick
Barrel Size	14oz
Delivery	1 oz per 12 strokes
Discharge Hose Length	1.8 metres (standard)
Self-Priming Hydraulic Pump	Standard
Outlet	Giant Button Head Coupler
Net Weight	16kg

10,000 PSI Screw Prime Hand Grease Gun

Product Description:

The 10K Screw Prime Hand Grease Gun is a compact, highly efficient grease gun which has a capacity for grease injection of up to 10,000 PSI. It is ideal for pumping liquids or solids in controlled amounts thus preventing waster or excess material discharge. It is designed for low and high-pressure application and is usable in any position. The grease gun is designed for high temperature and harsh environment services so can be used anywhere.

Features:

- Rated to 10,000 PSI
- Easily serviceable and all replacement parts are readily available
- Easily refilled with grease in sticks or bulk
- Hardened, one-piece precision ground plunger
- High strength screw handle
- Premium primer die spring
- Heavy duty metal constructions
- Corrosion resistant
- Adjustable plunger packing
- "Sure grip" surfaces
- Compatible with the ACC-GP-CI Cartridge Loader so you can use your cartridges
- 0.5 meters of 1/4" Discharge hose with swivel – 10,000 psi
- Liquid Filled Pressure Gauge – 15,000 psi
- Gauge Cover
- Button Head Coupler
- Operation Manual

 Product Code: ACC-SGG-10K-K/J-STK

Capacity	"K" size stick "J" size stick
Delivery	1 oz (28.35g) / 15 Strokes
Barrel	1-5/8" I.D
Outlet	1/4" NPT
Operating Pressure	Up to 10,000 PSI
Net Weight	5.21 kgs

ACC-HGG-CL (Optional Cartridge Loader)

10,000 PSI Hydraulic Hand Grease Gun

Product Description:

The 10K Hydraulic Hand Grease Gun is a compact, highly efficient grease gun which has a capacity for grease injection of up to 10,000 PSI. It is best suited for greasing small ball, gate and plug valves that do not require large volumes of grease. It can be used on Oil and Gas drilling rigs to lubricate choke and kill manifolds and Platform and Land oil/gas wellheads for valve greasing along with production facilities where there are gate, ball and plug valves. Also useful for operations such as pipelines, crude or refined oil, natural gas, LPG, hydrocarbons and other fuels, pumping and compressor stations, refineries and chemical plants.

Features and Specifications:

- Rated to 10,000 PSI
- Safety Latch and Tamper proof internal relief valve
- Detachable handle with 1oz. calibrations (measuring volume)
- Handle used as push rod to return barrel piston and to lock & unlock barrel cap
- Superior performance with viscous lubricants, sealants, packing and cleaners
- Easily serviceable and all replacement parts are readily available
- Double Bypass Valve Stop and Sliding Stop Link
- Easily refilled with "J" sticks
- Heavy duty metal construction
- Handle retaining Strap
- "Sure Grip" surfaces
- 0.5 meters of 1/4" Discharge hose with swivel – 10,000 psi
- Liquid Filled Pressure Gauge – 15,000 psi
- Gauge Cover
- Button Head Coupler
- Maximum grease gun discharge pressure – 10,000 psi
- Bottle of Hydraulic Oil

ACC-SGG-CL (Optional Cartridge Loader)

Product Code: ACC-HGG-10K-J-STK

Capacity	"J" size stick
Delivery	1 oz (28.35g) / 50 Strokes
Self-Priming	Standard
Outlet	1/4" NPT
Operating Pressure	Up to 10,000 PSI
Net Weight	7.25 kgs
